

Voluntary Elections

Pre -Tax Savings

Nye County allows employees to pre-tax voluntarily deductions, this program allows you to pay certain insurance premiums on a "pre-tax" basis through salary reduction thereby reducing your federal income taxes and increasing your take-home pay. This election is available during the employee's initial employment period and during open enrollment each year. Because of this tax advantage, federal law restricts employees from making changes in their benefit elections except during the open enrollment period, to be effective the following July 1st. This means you cannot add, drop or change your benefit elections at any other time except if you complete appropriate forms within 30 days of a qualifying event, such as a change in family status including marriage, birth, divorce, or death. Annually you will be required to decline participation if you prefer your deductions to be withheld after tax.

"Negative Enrollment" ~ Effective immediately a negative ABT enrollment policy will go into effect. Human Resources must receive a waiver form declining participation in the ABT benefit. If a waiver form is not on file any deductions that qualify for ABT will automatically be set up pre-taxed and cannot be stopped unless a "qualifying event" occurs.

That's why LTD (Long Term Disability) coverage makes sense - it replaces a portion of your income, helping to ease the burden of everyday expenses. The plan will replace 60% of your gross weekly earnings if you become disabled and were unable to work after being disabled for 90 days (3 months) or 180 days (6 months).

All full-time employees are eligible to participate in the STD (Short Term Disability) plan based on a sickness, pregnancy or accidental injury. You must be receiving appropriate care and treatment from a doctor on a continuing basis and are unable to earn more than 80% of your predictability earnings. The benefit coverage amount is at your choice in \$50 weekly (minimum \$100), not to exceed 60% of your gross weekly earnings. Benefits begin following 14 days of disability for accidents, illness, or injury and will not exceed 24 weeks.

FSA ~ Flexible Spending Account

A Flexible Spending Account (FSA) is an employer-sponsored plan that allows you to deduct dollars from your pay and put them into a special account that is protected from taxes. A Health Care Flexible Spending Account can be used for eligible health care expenses incurred by you, your spouse and your dependents for medical, dental and vision services that are not fully covered under your health care plan.

A Dependent Care Flexible Spending Account can be used for child care services which make it possible for you (and your spouse, if applicable) to work. Under certain circumstances, it may also be used to help pay for the care of a disabled spouse or dependent. To be eligible, you must be at work during the time your eligible dependent receives care.

FSA accounts are exempt from federal income taxes. The more money you put in, the more tax you avoid. When you use the money in your account to pay for out-of-pocket family care expenses, you avoid paying taxes on those dollars. Depending on your tax bracket, you may save up to 30% in taxes. Employees are eligible to contribute \$2,700 toward Health Care FSA and \$5,000 (\$2,700 if married filing a separate tax return) on Dependent Care FSA. See additional information under FSA.
