INDEPENDENT AUDITOR'S REPORT

Honorable Board of County Commissioners
Nye County, Nevada
Tonopah, Nevada

I have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Nye County, Nevada, as of and for the year ended June 30, 2005, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. My responsibility is to express opinions on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standard*, issued by the Comptroller General of the United States. . Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinions.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Nye County, Nevada as of June 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof, and the respective budgetary comparison for the General Fund, Education Endowment Fund, Special Projects Fund, County Capital Projects Fund, Capital Projects Endowment Fund, Repository Oversight Special Revenue Fund, and Nye County Hospital Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, I have also issued my report dated March 8, 2006 on my consideration of the County's internal control over financial reporting and my test of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of my audit.

The management's discussion and analysis on pages 3 through 9 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, I did not audit the information and express no opinion on it.

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Nye County, Nevada's basic financial statements. The introductory section, combining and individual fund statements and schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, I express no opinion on them.

Nye County, Nevada
Management's Discussion and Analysis
June 30, 2005

The Management Discussion and Analysis ("MD&A") introduces the financial reports for Nye County, Nevada. The MD&A is designed to give the reader an easy-to-understand overview of the County's financial position and results of operations for the year.

Financial Highlights

The County's primary revenue sources for governmental activities were property taxes \$13,864,594, consolidated taxes \$13,071,442 and PETT \$10,500,000. These revenue sources comprised 21.41%, 20.19%, and 16.21% respectively, or 57.81% of total governmental activities revenues.

The County's total expenses were \$54,831,698. The greatest expenses were in General Government \$19,166,922 and Public Safety \$14,969,314 functions. Business-type activities contributed \$1,895,550 to total expenses.

At the end of the fiscal year, the unreserved fund balance for the General Fund was \$822,806. This was an increase of \$4,570 from the prior year unreserved fund balance.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements which are composed of government-wide financial statements, fund financial statements, and accompanying notes. This report also contains required supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances in a manner similar to a private-sector business.

The statement of net assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave).

The government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, judicial, public safety, public works, health, welfare, culture and recreation, other, and interest on long-term debt.

Fund Financial Statements

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, Education Endowment, Special Projects, Capital Projects Endowment, Repository Oversight, County Capital Projects and Nye Hospital District funds, each of which is considered to be a major fund. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds are provided in the combining and individual fund statements and schedules.

The County adopts an annual appropriated budget for each of its governmental funds. A budgetary comparison statement is provided for each of the County's governmental funds to demonstrate compliance with the budget.

Proprietary Funds

The County maintains two distinct types of proprietary funds.

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses an enterprise funds to account for its water and sewer activities in the Town of Gabbs and its County Solid Waste activities.

Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. Because these services predominately benefit governmental

rather than business-type functions, they have been included within governmental activities in the government-wide financial statements. The County uses internal service funds to account for the for Self-insurance activities. The Motor Pool fund has been used to account for servicing of the County's motor fleet. However, the activity in the fund was discontinued during the year.

Fiduciary Funds

The County's fiduciary funds consist of 1 private purpose trust fund and 18 agency funds. The private trust fund is the Flint Scholarship fund. The agency funds are used to hold monies for other entities or individuals until disposition. The agency funds consist of Pahrump Town, Tonopah Town, Round Mountain Town, Pahrump Library, Amargosa Library, Beatty Library, Tonopah Library, Smoky Valley Library, Smoky Valley Television, Nye School General, Nye School Debt Service, Property, Habitat Construction and Mitigation, State of Nevada, State of Nevada Indigent, Range Improvement, Nye County School District Impact Fees, and Endangered Species Act.

Notes to Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information including historical information on tax rates for the County's overlapping taxing districts.

It also includes a schedule of budgetary comparisons for both the original and final budgets of the general fund and the various other County funds.

The combining statements and individual fund schedules are presented immediately following the required supplementary information.

Government-Wide Financial Analysis

Net assets of the County as of June 30, 2005, are summarized and analyzed below:

Nye County Net Assets

	<u>Governmental Activities</u> <u>2005</u>	<u>Business Type Activities</u> <u>2005</u>	<u>Total</u> <u>2005</u>
Assets			
Current and other assets	\$ 60,458,858	\$ 2,510,500	\$ 62,969,358
Net capital assets	<u>53,796,756</u>	<u>1,364,446</u>	<u>55,161,202</u>
Total Assets	<u>\$ 114,255,614</u>	<u>\$ 3,874,946</u>	<u>\$ 118,130,560</u>

Total Net Assets	<u>\$ 89,625,091</u>	<u>\$ 2,610,941</u>	<u>\$ 92,236,032</u>

•As noted earlier, net assets may serve over time as a useful indicator of the County's financial position. Assets exceeded liabilities by \$92,236,032 as of June 30, 2005.

The largest portion of the County's net assets 46.3% reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, etc.); net of any related debt outstanding used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate the debt.

The County's restricted net assets represent resources that are subject to external restrictions on how they may be used.

The remaining portion of the County's net assets are unrestricted and may be used to meet the County's ongoing obligations to citizens and creditors.

Program revenues included charges for services, fines and forfeitures, certain licenses and permits, special assessments, and both operating and capital grants and contributions.

General revenues consisted of taxes and interest. For governmental activities, the largest of these revenues, was ad valorem taxes. The second largest revenue was consolidated taxes. The business-type general revenue came from charges for services related to the Gabbs Utility and Solid Waste.

Financial Analysis of the County's Funds

The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the County's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular reserved

As of the end of the current fiscal year, the County's governmental funds reported a combined ending fund balance of \$50,606,571. Approximately 90.0% of fund balances \$45,568,138 constitute unreserved fund balance. The remainder of the fund balance is reserved to indicate that it is not available for new spending because it has already been committed.

The General Fund is the chief operating fund of the County. At the end of the current fiscal year, the unreserved fund balance of the General Fund was \$822,806.

Key factors in the change in fund balance in the General Fund are as follows:

Revenues and transfers in decreased by \$362,990, or 1.3%. Tax revenue increased by \$550,256 or 5.6%, due to increased property values. Intergovernmental revenues increased by \$1,244,730 or 10.0%, due to increased consolidated taxes. Charges for services increased by \$532,143 or 29.1%, primarily due to an increase in Department of Energy reimbursements and an increase in Recorder fees. Transfers in decreased by \$2,588,027 or 100%.

Expenditures and transfers out increased by \$615,130 or 2.3%. General government expenditures increased \$1,670,551 or 18.7%. Transfers out decreased by \$940,165 or 75.2%.

NYE COUNTY, NEVADA
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2005

Net Change in Fund Balance - Governmental Funds **\$ 10,893,493**

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of net assets and allocated over the estimated useful lives as annual depreciation expenses in the statement of activities 9,096,290

Property taxes that are collected in time to pay obligations of the current period are reported as revenue in the fund statements. However, amounts that related to prior periods that first become available in the current period should not be reported as revenue in the statement of activities (59,352)

The issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts and other similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. (7,963,707)

The net losses of the Internal Service Funds are not reported in this fund financial statement because they are presented on a different accounting basis (in the proprietary fund financial statements), but they are presented in the statement of activities 5,855

Generally, expenditures recognized in fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred (151,862)

Change in net assets of governmental activities **\$ 11,820,717**

The notes to the financial statements are an integral part of this statement.

NYE COUNTY, NEVADA
Notes to Financial Statements
June 30, 2005

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. Although the County has the option to apply FASB pronouncements issued after that date to its business-type activities and enterprise funds, the County has chosen not to do so. The more significant accounting policies established in GAAP and used by the County are discussed below.

These and other changes are reflected in the accompanying financial statements (including notes to financial statements). The County has elected to implement the general provisions of the Statement and plans to retroactively report infrastructure assets acquired prior to July 1, 2004 in the fiscal year ending 2006.

1. Reporting Entity

Nye County, Nevada is a municipality governed by an elected five member board. As required by generally accepted accounting principles, these financial statements present Nye County, Nevada (the primary government) and its component units. Included as component units are the Nye County Hospital District and the Pahrump Community Hospital District.

Although each of the above mentioned governmental units operates as a separate entity, the members of the Board of Nye County Commissioners are also the board members (ex-officio) of the Districts. Because the component units have substantially the same governing body as the governing body of the primary government, they are blended into the financial statements and they are reflected as Special Revenue Funds.

2. Basic Financial Statements

The County's basic financial statements consist of government-wide statements and the fund financial statements. The government-wide statements include a statement of net assets and a statement of activities. The fund financial statements include financial information for the three fund types: governmental, proprietary and fiduciary. Reconciliations between the fund statements, the statement of net assets, and the statement of activities are also included along with statements of revenues, expenditures and changes in fund balances for the County's General Fund and its other major funds.

3. Government-wide Financial Statements

The government-wide financial statements are made up of the statement of net assets and the statement of activities. These statements include the aggregated financial information of the County as a whole, except for fiduciary activity. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. For the most part, the effect of interfund activity has been removed from these statements.

The statement of net assets presents the consolidated financial position of the County at year-end, in separate columns, for both governmental and business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or program are offset by program revenues. Direct expenses are those that are specifically associated with a program or service and are, therefore, clearly identifiable to a particular function. Program revenues include operating grants and contributions and investment earnings legally restricted to support a specific program. Taxes and other revenues properly not included among program revenues are reported instead as general revenues. This statement provides a net cost or net revenue of specific programs and functions within the County. Those functions with a net cost are generally dependent on general-purpose tax revenues, such as property tax, to remain operational.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

4. Fund Financial Statements

The financial accounts of the County are organized on the basis of funds each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts comprised of assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

The presentation emphasis in the fund financial statements is on major funds for governmental funds. Major individual governmental funds are required to be reported in separate columns on the fund financial statements. Major funds are determined based on minimum criteria set forth in GASB Statement Number 34. The County may also display other funds as major funds if it believes the presentation will provide useful information to the users of the financial statements.

5. Measurement Focus, Basis of Accounting, and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Gross receipts and sales taxes are considered "measurable" when in the hands of intermediary collecting governments and are then recognized as revenue. The government considers revenues to be "available" if they are collected within 60 days of the end of the current fiscal period. Anticipated refunds of taxes are recorded as liabilities and reductions of revenue when they are measurable and the payment seems certain. In general, expenditures are recorded when liabilities are incurred. The exception to this rule is that principal and interest on debt service, as well as liabilities related to compensated absences and claims and judgments, are recorded when payment is due.

The major revenue sources of the County include ad valorem (property) taxes and consolidated taxes.

All of the County's major funds are governmental funds. The County reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the County. It is used to account for all resources and cost of operations traditionally associated with governments, which are not required to be accounted for in other funds.

Education Endowment Fund - The Education Endowment Fund is used to account for funds allocated for the educational needs of County residents.

Special Projects Fund - The Special Projects Fund is used to account for funds allocated for the capital improvement and special projects of the County, including infrastructure such as highways and streets.

Capital Projects Endowment Fund - The Capital Projects Endowment Fund is used to account for funds allocated for the future capital needs of the County.

Nye County Hospital District Fund - The Nye County Hospital District Fund is used to account for funds allocated for the maintenance of the hospital building in Tonopah and the repayment of debt to the County special projects fund.

Repository Oversight Fund - The Repository Oversight Fund is used to account for federal grant monies received.

County Capital Projects - The County Capital Projects Fund is used to account for capital improvement projects of the County.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

Additionally the County reports the following fund types:

Proprietary Fund:

Enterprise Fund -

Gabbs Utility Fund - The Gabbs Utility Fund accounts for the Town of Gabbs delivery of water and sewer services.

Solid Waste Fund - The Solid Waste Fund is used to account for garbage disposal throughout the County.

Internal Service Fund - The Internal Service Fund is used to account for the financing of goods or services provided by one department to other departments of the County on a cost reimbursement basis. Currently, there are two Internal Service Funds.

Self Insurance Fund - The Self Insurance Fund is used to account for property damage claims of the County.

Motor Pool Fund - The Motor Pool Fund is used to account for the costs of providing maintenance for equipment through out the County.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989 are generally followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The County has elected not to follow this subsequent private-sector guidance.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue for the Self Insurance Fund are insurance proceeds for damage claims. Expenses are for property repair or replacement. The principal operating revenues of the Gabbs Utility Fund are customer charges. Expenses are those required to provide the service. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Fiduciary Funds:

Private Purpose Trust Fund- The F.H. Flint Scholarship Trust Fund is used to account for funds held in trust for educational scholarships of qualified County residents.

Agency Funds - The Agency Funds are used to account for assets held by the County in an agency capacity for others and cannot be used to support the government's own programs.

6. Assets, Liabilities, and Equity

a. Pooled Cash and Investments

The County maintains a cash and investment pool that is available for use by all funds. At June 30, 2005, this pool is displayed on the financial statements as "Pooled cash and investments".

The County's cash and cash equivalents are considered to be cash on hand, demand deposits and short term investments with original maturities of three months or less from the date of acquisition.

Investments are stated at fair value on the balance sheet. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale. Changes in the fair value of County investments are part of investment income which is included in revenue from local sources on the financial statements. (See Note C1)

Nevada Revised Statutes authorize the County to invest in:

1. Obligations of the U.S. Treasury and U.S. agencies in which the maturity dates do not extend more than 10 years from the date of purchase.
2. Negotiable certificates of deposit issued by commercial banks or insured savings and loan associations (those over \$100,000 must be fully collateralized).
3. Negotiable notes or short term negotiable bonds issued by local governments within Nevada.
4. Eligible bankers' acceptances that do not exceed 180 days maturity and do not exceed 20 percent of the investment portfolio.
5. Commercial paper with a rating of A-1 or P-1 that does not exceed 270 days maturity and does not exceed 20 percent of the portfolio.
6. The State of Nevada's Local Government Investment Pool.
7. Repurchase agreements that are collateralized at 102 percent of the repurchase price and do not exceed 90 days maturity. Securities used for collateral must meet the criteria listed above.
8. Money market mutual funds which are rated as "AAA" or its equivalent and invest only in securities issued by the Federal Government, U.S. agencies, or repurchase agreements fully collateralized by such securities.

b. Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "interfund receivables/payables" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds".

Advances between funds are offset by a fund balance reserve account in applicable governmental funds to indicate they are not available for appropriation and are not expendable available financial resources.

Taxes on real property are levied in July each year and are due on the third Monday in July. They can be paid in quarterly installments in August, October, January, and March. In the event of nonpayment, the County Treasurer is authorized to hold property for two years, subject to redemption upon payment of taxes, penalties, and costs, together with interest at the rate of 10 percent per year from the date the taxes were due until paid. If delinquent taxes are not paid within the two year redemption period, the County Treasurer obtains a deed to the property free of all encumbrances. Upon receipt of a deed, the County Treasurer may sell the property to satisfy the tax lien.

Article X, Section 2, of the Constitution of the State of Nevada limits the total taxes levied by all overlapping governmental units within the boundaries of any County (i.e., the County, the County School District, the State, and any other City, Town, or special District) to an amount not to exceed \$5 per \$100 of assessed valuation of the property being taxed.

The Nevada Legislature enacted provisions whereby the combined overlapping tax rate was limited to \$3.64 per \$100 of assessed valuation. (See Note D2)

c. Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Payments to vendors that will benefit periods beyond June 30, 2005 are recorded as expenditures in the fund financial statements. They are recorded as prepaid expenses in the government-wide financial statements. There were no material prepaids at June 30, 2005.

d. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$3,000 and an estimated useful life in excess of one year. If purchased or constructed, capital assets are recorded at historical cost or estimated historical cost and updated for additions and retirements during the year. Donated capital assets are valued at their estimated value as of the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Notes to Financial Statements (Continued)
June 30, 2005

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. Assets, Liabilities, and Equity (Continued)

d. Capital Assets (Continued)

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

<u>Capital Assets</u>	<u>Years</u>
Buildings and Improvements	25-50
Vehicles	8
Various Other Equipment	5-20
Infrastructure	25-50

GASB No. 34 requires the County to report and depreciate new infrastructure assets effective with the beginning of the current year. Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc. These infrastructure assets are likely to be the largest asset class of the County. Neither their historical cost nor related depreciation has historically been reported in the financial statements. The retroactive reporting of infrastructure is subject to an extended implementation period and is first effective for fiscal years ending in 2006. The County elected to implement the general provisions of GASB No. 34 and plan to implement the retroactive infrastructure provisions (under the modified approach) in the fiscal year ending June 30, 2006.

e. Compensated Absences

Vested or accumulated vacation and sick leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide financial statements. No expenditure is reported for these amounts in the fund financial statements (See Note D5). Vacation leave and sick leave included in accrued liabilities and recorded as expenditures in governmental fund types is the amount normally liquidated from “available spendable resources”.

In proprietary funds, compensated absences are recorded when the liabilities are incurred. In governmental funds, the current portion is recorded as a payroll expenditure. The estimated long-term liability for compensated absences is accounted for in the government-wide financial statements.

f. Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. Deferred losses related to the refunding of debt are reported as a deferred charge component of bonds payable and are amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

g. Fund Equity

In the fund financial statements, reservations of fund balance represent amounts that are not appropriable or are legally segregated for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

h. Net Assets

In the government-wide statements, net assets on the Statement of Net Assets includes the following:

(I) Invested in Capital Assets, net of Related Debt

This is the component of net assets that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction or improvement of those assets.

(ii) Restricted Assets

This is the component of net assets that reports the constraints placed on the use of assets by either external parties and/or enabling legislation. Designations of fund balance represent tentative management plans that are subject to change.

(iii) Unrestricted

This is the component of net assets that is the difference between the assets and liabilities not reported in Invested in Capital Assets, Net of Related Debt and Restricted Assets.

i. Comparative Data/Reclassifications

Comparative total data for the prior year has been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the County's financial position and operations. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

j. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

k. Nye County Hospital District

On August 12, 1999, all assets of the Nye County Hospital were sold to a private health care corporation. The total purchase price was \$100,000. The District received \$10,000 as a down payment and accepted a note requiring monthly payments of \$750, maturing in 2008. The note is non-interest bearing. Liabilities of the District were not assumed by the buyer.

On August 12, 1999 the Nye County Commissioners dissolved the Nye County Hospital District and notified the Nevada Department of Taxation that the District had been dissolved and all assets had been sold to a Nevada corporation. A letter from the Nevada State Attorney General's office dated March 6, 1985 stated that Nye County would be responsible for the accounts payable and debts of the District. The Department of Taxation approved the continuation of property tax assessment for the District for a period not to exceed ten years or until all debts have been repaid. The County will continue preparing financial reports as requested by the Nevada Department of Taxation until all debts are repaid.

I. Pahrump Community Hospital District

In August of 2002, the Pahrump Community Hospital District was dissolved by the Nye County Commission. Assets and liabilities of the District were assumed by the County. At June 30, 2005, the District had outstanding general obligation medium-term refunding note. The general obligation medium-term refunding note is being repaid with a property tax levy.

B. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of certain differences between the governmental funds balance sheet and the government-wide statement of net assets

The governmental funds balance sheet includes a reconciliation between fund balances - total governmental funds and net assets - governmental activities as reported in the government-wide statement of net assets. One element of the reconciliation explains that "certain liabilities (such as bonds payable and capital lease payable) are not reported in the fund financial statement because they are not due and payable." The details of this difference is as follows:

Bond payable	\$ 6,442,648
Interest payable	195,301
Capital lease payable	5,689,985
Compensated absences	<u>2,795,444</u>
Net adjustment to reduce fund balance - total governmental funds to arrive at net assets - governmental activities	<u>\$ 15,123,378</u>

2. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of net assets and allocated over their estimated useful lives as annual depreciation expense in the statement of activities. The details of this difference is as follows:

Capital outlay	\$ 12,669,283
Transfer of asset to solid waste	(201,492)
Asset retirements	(305,370)
Depreciation expense	<u>(3,066,131)</u>
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	<u>\$ 9,096,290</u>

Another element of that reconciliation states that "The issuance of long-term debt (i.e., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of this difference are as follows:

Debt issued or incurred:	
Capital lease issued	\$ (9,600,000)
General obligation debt principal payments	<u>1,636,293</u>
Net adjustment to decrease change in fund balances - governmental funds to arrive at change in net assets of governmental activities	<u>\$ (7,963,707)</u>

B. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

2. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities (Continued)

Another element of that reconciliation states that “Generally, expenditures recognized in the fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred.” The details of this difference are as follows:

Accrued interest	\$ (195,301)
Compensated absences	<u>43,439</u>
Net adjustment to decrease net change in fund balances - governmental funds to arrive at change in net assets of governmental activities	<u><u>\$ (151,862)</u></u>

C. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

1. Budgetary Information

The County uses the following procedures to establish, modify, and control the budgetary data presented in the financial statements:

- a. Prior to April 15, the County submits to the Nevada State Department of Taxation the tentative budget for the next fiscal year, commencing on July 1. The budget, as submitted, contains the proposed expenditures and means of financing them.
- b. The Nevada State Department of Taxation notifies the County of its acceptance of the budget.
- c. Public hearings are conducted on the third Monday in May.
- d. After all changes have been noted and hearings closed, the County Commissioners adopt the budget on or before June 1.
- e. Whenever such an action does not increase the total appropriation for any fiscal year and is not in conflict with other statutory provisions, the financial officer may transfer appropriations within any function or program or between functions or programs within a fund, if:
 1. The governing body is advised of the action at the next regular meeting; and;
 2. The action is recorded in the official minutes of the meeting.
- f. Increases to a fund’s budget (augmentations) other than by transfer are accomplished through formal Commission action.
- g. Statutory regulations require budget control to be exercised at the function level within the General Fund or at the fund level for other funds.
- h. Budget appropriations lapse at year end.

Amargosa Community Center Special Revenue Fund	36,887
Juvenile and Probation Special Revenue Fund	116,044

D. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

1. Pooled Cash and Investments

At year end, the County’s carrying amount of deposits was \$1,576,622 and the bank balance was \$2,600,774. Of the bank balance, \$100,000 was covered by Federal Depository Insurance, and the remaining balance was covered by collateral held by the State Treasurer in the County’s name.

The Nye County Treasurer administers an investment pool in accordance with Nevada Revised Statutes Chapter 354.168. At June 30, 2005 this pool is displayed by fund type on the financial statement as “Pooled Cash and Investments”. The pool is available for use by all funds of the County. Any local government within Nye County whose money is held under the custody of the County Treasurer may invest its money with the investment pool. The County Treasurer may invest the money of the investment pool in investments which have been authorized as investments by Nevada Revised Statutes. **(See Note A6a)**

Interest is apportioned to the funds within the pool monthly based on the fund’s ending balance invested for the month.

Investments are stated at fair value.

The Nevada State Treasurer’s Local Government Investment Pool is an agency fund of the State administered by the State Treasurer. Any local government may deposit its money with the fund. The State Treasurer may invest the money in the fund in investments which have been authorized as investments for local governments by Nevada Revised Statutes and in time certificates of deposit. **(See Note A6a)**

At the end of each month the State Treasurer computes the portion of the total deposits in the fund which were attributable during the month to each local government. The proportion is applied to the total amount of interest received during the month on invested money of the fund and credited to each participating local government less the proportionate amounts of the assessments for the expenses of administration.

The fair value of the County’s investment in Treasury notes was determined by market quotes as of June 30, 2005.

Investment income earned from pooled investments of funds that is assigned to another fund was as follows:

<u>TO</u>	<u>FROM</u>	<u>AMOUNT</u>

Revenue Bonds

The Town of Gabbs' 1989 Water Revenue Bonds were issued in the amount of \$575,100 payable to Farmer's Home Administration (FMHA). The bonds are to be repaid over 40 years requiring one semiannual payment of interest only and one payment of principal and interest at an interest rate of 7.125%. The current outstanding principal balance at June 30, 2005 is \$482,156.

The maturity requirements of the bonds payable is as follows:

<u>Year Ended June 30,</u>	<u>Interest</u>	<u>Principal</u>	<u>Total</u>
2006	\$ 34,354	\$ 8,199	\$ 42,553

	<u>\$ 529,471</u>	<u>\$ 482,158</u>	<u>\$1,011,629</u>

The FMHA bond covenant requires the Town to deposit into the Reserve Account a yearly increase of 1/10th of the annual payment until the reserve amount is achieved. Consequently, the Town's loan reserve balance is approximately \$42,000 under the required balance as agreed to under the bond covenant. While the Town is currently in violation of the bond covenant, the Town has not been notified by the FMHA that the loan will be called. Therefore, these financial statements are following the current and long term maturity requirements as listed above.

E. OTHER INFORMATION

1. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions, injuries to employees; and natural disasters. The County joined together with other local governments in the Nevada Public Agency Insurance Pool (NPAIP), a public entity risk pool currently operating as a common risk management and insurance program for member local governments. The county pays an annual premium to NPAIP for its property, casualty, crimes, and machinery insurance coverage. NPAIP is self sustaining through member premiums and reinsures through commercial companies for claims in excess of \$100,000 property and crimes, casualty \$250,000 each and every insured event. As a participatory member the maintenance deductible is \$25,000 for each insured casualty event and \$10,000 for each and every loss for property and claims.

The County participates in the Public Agency Compensation Trust (PACT). Premiums paid to PACT cover workers compensation claims against the County. Premiums are based on a percentage of wages paid.

The County is self insured for unemployment claims. Payments are made from the General Fund to cover claims.

The County purchases health care coverage for its employees from a commercial carrier.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. At June 30, 2005, no claims liabilities were recorded.

2. Contingent Liabilities

Federal, State and Other Grant Receipts, Disbursements and Deferred Revenue

Nye County has been the recipient of a number of grants during the current and prior years. Most of these grants are subject to audit, therefore, the amount of the grants ultimately to be retained by Nye County may vary from that currently or previously reported if it were determined that they had not been expended in accordance with the grantor's stipulations. Presently, Repository Oversight funding is under audit by the granting agency. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time. The Nye County Economic Development grant is under audit by the granting agency. Grant reimbursements in the amount of \$800,000 have been questioned. The amount, if any, of the questioned reimbursements that may be required to be repaid is not determinable at this time. No adjustment has been made in the financial statements to reflect this possible debt.

County Hospital

On August 12, 1999 the Nye County Commission sold the assets of the Nye County Hospital District to a private health care corporation. All liabilities of the District were retained by Nye County, Nevada. The District tax rate will remain in effect for ten years from the date of sale or until the remaining liabilities are paid off. Any unpaid liabilities will be the responsibility of Nye County, Nevada.

In a letter dated March 6, 1985, the Nevada State Attorney General's office notified the Nye County Board of Commissioners that the County would be ultimately liable for the District's accounts payable if the public hospital was unable to pay its debts.

After the sale of the Hospital, the debt service tax rate remained in place until the bond debt was paid off. As of June 30, 2005 bond debt was fully retired. At June 30, 2005, restricted funds of \$251,187 were available for debt retirement. The restricted fund is in the custody of the Nye County Treasurer and reported as a Debt Service Fund. The remaining funds will be used to repay Hospital District debt payable to the Nye County Special Projects Fund.

2. Contingent Liabilities (Continued)

Landfill - Closure and Post Closure Costs

State and federal laws and regulations require the County to place a final cover on its landfill sites when it stops accepting waste and to perform certain maintenance and monitoring functions at the sites for thirty years after closure. The closure and post closure care costs will be paid only near or after the date that the landfills stop accepting waste.

As of June 30, 2005, the estimated liability to date for closure and post closure costs is \$717,289. This represents the cumulative amount reported to date based on percent use of the estimated liability of \$2,040,697 as the remaining capacity is used. Actual costs may be higher due to inflation, changes in technology or changes in regulations.

The County is operating four landfills as follows:

	<u>Estimated Site Life Remaining</u>
Pahrump	5 years
Tonopah	Phase I 11 years Phase II 40 years
Round Mountain	40 years
Amargosa	36 years

The County is presently using the "Local Government Test" as a financial assurance mechanism for its closure and postclosure costs. The County has assessed a \$12 fee for each parcel of land to be used for closure and postclosure costs. The provisions of this fee sunset in 2007. As of June 30, 2005 \$1,929,642 has been placed in a restricted account for future closure and postclosure costs in the Solid Waste Fund. .

Litigation

The County is involved in various litigation. The outcome of these issues is not presently determinable. It is the opinion of the counsel that the resolution of these matters will not have an adverse material effect on the financial condition of the County.

3. Retirement Plan

Plan Description. Nye County, Nevada is a public employer contributing to the Public Employee Retirement System of the State of Nevada (PERS), a cost sharing multi-employer defined benefit pension plan. The plan is administered by the State of Nevada Retirement System.

Benefits as required by Nevada Revised Statutes are determined by the number of years of accredited service at the time of retirement and the member's highest average compensation in any 36 consecutive months. Benefit payments to which participants may be entitled under the Plan include pension benefits, disability benefits and death benefits.

Monthly benefit allowances for members are computed at 2.5% of average compensation (36 consecutive months of highest compensation) for each accredited year of service prior to retirement with a ceiling of 75% of the average compensation. PERS offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his/her life and various optional monthly payments to a named beneficiary after his/her death. Regular members are eligible for retirement at age 65 with 5 years of service or age 60 with 10 years of service or any age with 30 years of service. Police and fireman are eligible for retirement at age 65 with 5 years of accredited police and fire service or age 55 with 10 years of service or at age 50 with 20 years of accredited police and fire service.

Carson City, NV 89703-1599

Funding Policy. Contribution rates are established by NRS 286.410. The statute, which is tied to the increase in taxable sales within the State each year, provides for yearly increases of up to 1 percent until such time as the actuarially determined unfunded liability of the Plan is reduced to zero.

Contributions to the plan are made by the County. The contribution rate for fire and police employees is 28.5 percent, and 20.25 percent for regular employees. The contribution requirement for the year ended June 30, 2005 was \$3,850,864. The contributions were equal to the required contributions for the year. The contribution requirement for the years ended June 30, 2004 and 2003 were \$3,811,376 and \$3,386,994, respectively. These contributions were equal to the required contribution for the year.

The County has no liability for unfunded obligations of the system as provided by Nevada Revised Statutes Chapter 286.110.

4. Other Postemployment Benefits

The County provides postretirement health, dental care, life, vision, and prescription benefits for certain retirees. The premiums vary depending on the years of service and hire date of retiree. The County pays 100 percent of the premiums of health and dental care coverage for non-law enforcement employees who retire with 25 years of full time service. The County pays 75 percent with 20 years service and 50 percent with 15 years of service. Employees hired prior to August 1, 2002 are eligible for the same paid coverage for post retirement health care benefits after eight continuous years of service. The percentage of paid benefits will be the same as the County pays its full time employees.

Employees hired on or after August 1, 2000, who vest in Public Employees' Retirement System (PERS) by or through their employment with the County, and have worked not less than 20 continuous years for the County, and when they leave County employment and collect PERS retirement will have fifty percent of their post retirement health insurance premiums paid by the County.

Law enforcement employees hired before December 1, 1998 are eligible for 100 percent premium payment coverage with eight years of service. Law enforcement employees hired after December 1, 1998 are eligible for 50 percent premium payment after 8 years service.

As of year end, there were 99 employees who had retired that were receiving the premium coverage benefit. The County finances the plan on a pay as you go basis. For the year ended June 30, 2005 the County recognized as incurred \$510,482 of expenditures.
